

TECHNOLOGY ARCHITECTURE

As our lives are very busy these days, we often feel we need more than 24 hrs. a day to cope up with everything we have in our schedule. Well, that's not possible but reducing the time by changing the conventional method of reading news can help. Just tell us what market news you are interested in and get a quick peek for the day. Only read what you feel is relevant and save your time. This app helps you to query for all information about Indices, Commodities, Currencies, Future Rates, Bonds, etc.... as on official websites.

Explanation:

- The user interacts with the application.
- Registers by giving the personal details like Name, Mail id, Phone number, Address, etc.
- Integrate the application with news APIs and store the data in database.
 - The database will have all the details and the user can search the news by using a search bar.
